

TIME	EVENT	AUTHORS	TITLE
9:00-9:30	Registration		
9:30-10:30	Invited talk 1	Jubin Abutalebi (University Vita-Salute San Raffaele)	Neuroanatomical perspectives on bilingualism and language experience
10:30-10:50		Lihua Xia (University of Edinburgh), Thomas H. Bak (University of Edinburgh), Antonella Sorace (University of Edinburgh), Mariana Vega-Mendoza (2Umeå University, Umeå, Sweden)	Bilingualism and Cognitive Functions
10:50-11:10		Mikhail Ordin, Leona Polyanskaya, David Soto (BCBL)	Metacognitive processing in statistical learning is modulated by bilingualism
11:10-11:30		Ramesh Mishra (Center for Neural and Cognitive Sciences, University of Hyderabad), Manasa Padmanabhuni (Center for Neural and Cognitive Sciences, University of Hyderabad), Pratik Bhandari (Center on Cognition, Brain and Language, Sebastian, Spain), Shiji Viswambharan (IISER Thiruvananthapuram), Seema Prasad (Center for Neural and Cognitive Sciences, University of Hyderabad)	Second language proficiency and executive control in ageing bilinguals : Now we see and now we don't
11:30-12:00		COFFEE BREAK	
12:00-13:00	Invited talk 2	Viorica Marian (Northwestern University)	How Bilingualism Changes Linguistic, Cognitive, and Neural Processing
13:00-13:20		Sergio Pereira Soares (University of Konstanz), Vince DeLuca (University of Birmingham), Toms Voits (University of Reading), Ellen Bialystok (York University), Anastasia Christakou (University of Reading), Christos Pliatsikas (University of Reading, Universidad Nebrija), Jason Rothman (UiT the Arctic University of Norway, Universidad Nebrija)	Beyond Structure: Investigating neurochemical bases for bilingualism-induced neural plasticity
13:20-13:40		Nur Basak Karatas (University of Maryland), Kira Gor (University of Maryland), Ellen Lau (University of Maryland) and Mehmet Aygunes (Istanbul University)	L1 and L2 Morphological and Morphosyntactic Processing of Case: ERP Evidence from Turkish
13:40-14:00		Wilhelmiina Toivo, Christoph Scheepers (University of Glasgow)	Comparing cognitive and physiological measurements of reduced emotional resonance in bilinguals' L2
14:00-15:30		LUNCH & POSTERS	
15:30-16:30	Invited talk 3	Gigi Luk (McGill University)	Beyond Group Comparisons: Understanding Bilingualism And Its Role In Development And Learning
16:30-16:50		Cristy Sotomayor (San Diego State University and University of California San Diego), Alyson Abel (San Diego State University), Mandy Maguire (University of Texas at Dallas)	Do Bilingual and Monolingual School-Aged Children Use Different Neural Mechanisms During Word Learning?
16:50-17:10		Gabriel Ong (University of Melbourne), Meredith McKague (University of Melbourne), Brendan Weekes (University of Melbourne) and David Sewell (University of Queensland)	Diffusing the Bilingual Lexicon
17:10-17:30		COFFEE BREAK	
17:30-18:30	Invited talk 4	Robert Hartsuiker (Ghent University)	Development of shared syntax: results from artificial language learning
