

POSTERS

1	Zhenguang Cai (The Chinese University of Hong Kong), Nan Zhao (University of Essex)	The sound of gender: Inferring the gender of names in a foreign language
2	Haoruo Zhang and Norbert Vanek (University of York)	From 'No, she does' to 'Yes, she does': Conceptual changes in Chinese-English bilinguals reflected in the processing of negation in negative yes-no questions
3	Keerthi Ramanujan (University of Hong Kong), Jubin Abutalebi (University Vita Salute San Raffaele)	Language Distance & Bilingual Language Control
4	Alena Nemtinova (Lomonosov Moscow State University, The Institute of Asian and African Studies)	Study of the characteristics of the oculomotor activity at the stage of internal speech of bilinguals in the translation process from Chinese
5	Toms Voits (University of Reading), Holly Robson (University of Reading), Jason Rothman (UiT the Arctic University of Norway, Universidad Nebrija), Christos Pliatsikas (University of Reading, Universidad Nebrija)	Bilingualism as a source of brain structure variability in ageing: an MRI study
6	Laurie Beth Feldman (The University at Albany, State University of New York), Vidhushini Srinivasan (Quantcast Bellevue, WA), Fermin Moscoso del Prado Martin (Alpha Barcelona, SP), Samira Shaikh (UNC Charlotte)	Lexical Diversity in Monolinguals and Bilinguals: A New Perspective on Cognitive Processes from Social Media Data
7	Carmela Chateau Smith (University of Burgundy)	Down Syndrome, Deafness, and Bilingualism
8	Sara D. Beck, Andrea Weber, Michael Erb, and Alexander M. Rapp (University of Tübingen)	Native and Non-native Idiom Comprehension: An fMRI Study
9	Opangiela Kechu, Bidisha Som (Indian Institute of Technology, Guwahati)	When differences are part of life, you don't see them: Is adaptive control aided by diversity?
10	Gustavo Lopez Estivalet (Federal University of Paraiba, Brazil), Fanny Meunier (Centra National de la Recherche Scientifique, University of Nice Sophia Antipolis, France)	Bilingual word recognition through morphology: lexicon organization and structure processing
11	Hye-Jin Seo, Jeong-Ah Shin (Dongguk University)	How L2 syntactic adaptation and lexical boost are modulated by word levels
12	Yuko Hijikata (University of Tsukuba)	The use of implicit causality information in L2 reference processing
13	Sarah von Grebmer zu Wolfsturn, Leticia Pablos Robles, Niels Schiller (Leiden University)	Cross-Linguistic Gender Interference in L2 Learners: The Effects of Cognate Status and Gender Congruency
14	Vasundhara Srivastava, Bidisha Som (Indian Institute of Technology Guwahati)	Stepping ahead or tracing back while language switching: Examining the switch-cost through self-paced reading in Hindi-English bilinguals
15	Ekaterina Stupina (National Research University Higher School of Economics, Moscow), Anna Chrabaszcz (National Research University Higher School of Economics, Moscow; University of Pittsburgh)	The effect of L1 grammatical gender on the acquisition of grammatical gender in a novel language
16	Tomás Goucha, Helyne Adamson, Alfred Anwander, Matthias Schwendemann, Martin Lisanik, Angela D. Friederici (Max Planck Institute for Human Cognitive and Brain Sciences, Leipzig, Germany)	Early brain changes while learning a second language - Relearning how to listen, read, and learn, from words to sentences
17	Jasmijn Bosch, Francesca Foppolo, Mathilde Chailleux (University of Milano-Bicocca)	Bilingual processing of grammatical gender
18	Emilia V. Ezrin, Martin Chodorow, Virginia Valian (The Graduate Center, CUNY; Hunter College)	Do They Get the Joke? Humor Processing in Bilinguals and Monolinguals
